

## Rubric Project

<b>project report</b>	15pts	all necessary information for all important parts. The entire approach should be detailed. sufficient information, some important details
<b>completeness (max 15pts)</b>	8pts 0pts	missing missing report or insufficient
<b>project report template (5pts)</b>	5pts 3pts 0pts	doesn't exceed 10 pages, contains Introduction, Algorithms, Experiments, Conclusions and References some parts missing a lot of parts are missing
<b>project report clarity (5pts)</b>	5pts 3pt 0pts	well written, no grammar or syntax errors and easy to read well written some errors poorly written with errors
<b>project topic dataset and problem (15pts)</b>	15pts 10pts 3pts	dataset useful, problem is interesting and relevant dataset somehow useful, problem not close related to course dataset not existing and the problem not relevant
<b>project topic preprocessing and algorithm(s) (25pts)</b>	25pts 18pts 10pts 5pts	algorithms well understood and implemented. Preprocessing of datasets done algorithms basic understanding. Preprocessing of dataset done algorithms basic understanding. Preprocessing of dataset trivial algorithms used as black box and datasets trivial
<b>project code commented and documented (10pts)</b>	10pts 7pts 3pts	all variables defined and commented, procedures and functions documented and described <i>one</i> of the following: undefined variables, procedures or functions without documentation or description) has <i>more than one</i> of: undefined variables, procedures or functions without documentation or description)
<b>project presentation (25pts)</b>	25pts 18pts 12pts 5pts 0pts	timely, good slides, clear description and good examples timely, good slides, clear description and good examples (one of them missing) timely, good slides, clear description and good examples (two of them missing) timely, good slides, clear description and good examples (three of them missing) timely, good slides, clear description and good examples (all of them missing)
